

# EBELE CYNTHIA OZOANI.

## FRONTEND DEVELOPER

---

Lagos, Nigeria | (+234) 7039065248 | [ocynthiaebele@gmail.com](mailto:ocynthiaebele@gmail.com) | [Linkedin](#) | [Git](#)

---

A Front-End Developer with 4 years of experience in creating appealing, interactive, and user-friendly interfaces. I have a strong track record of working effectively both collaboratively and independently. My knowledge and expertise enable me to solve problems that could impact the usability of applications. I am dedicated to delivering high-quality solutions that enhance the user experience.

---

### SKILLS SUMMARY

- **Languages:** Javascript, Typescript, C#.
  - **Libraries/Frameworks:** React JS, Next JS.
  - **State Management Tools:** Redux and Redux Toolkit.
  - **Others:** Version Control, HTML, CSS3, SCSS, Bootstrap, Material UI, AntD, Tailwind CSS, Agile Methodologies, Test Driven Development.
  - **Soft Skills:** Excellent Communication, Great Teamwork, Meticulous, Problem Solving.
- 

### WORK EXPERIENCE

#### Front-End Developer | Regxta Global Services Limited | November 2023 – till date.

- Contributed to the development of Regxta Web Application which reduced the development timeline by **15%** and **doubled** the number of customers who signed in 2 months.
- Integrated **Stripe** for payment processing, improving transaction efficiency and reducing payment processing time by **30%**.
- Implemented user authentication using Google and Facebook **Cloud Authentication** services, speeding up the onboarding process by **20%**.
- Employed **restful APIs** for backend communication.
- Optimized existing codebase and integrated code splitting to decrease app load time by **60%** and enhance overall app performance by **40%**
- Created modular and reusable UI components using Typescript and React JS, effectively enhancing maintainability, scalability and type safety.

#### Front-End Developer | NLPC PFA | September 2022- October 2023.

- Participated in design discussions, influencing application architecture and feature implementation to align with project goals.
- Translated Figma designs into functional code using CSS, HTML, React JS and Javascript.
- Maintained software documentation to ensure accuracy and completeness.
- Utilized Redux Tool Kit for state management.

## **Full Stack Developer | Decagon Institute | November 2021- August 2022.**

- Developed and deployed multiple applications utilizing technologies and tools such as ASP.NET Core, Entity Framework, SQL Server, and ASP.NET MVC.
  - Utilized ASP.NET Web API to build RESTful APIs, ensuring robust and scalable application architecture
  - Translated Figma designs into functional code using Bootstrap, CSS3, HTML, React JS and Javascript.
- 

## **EDUCATION**

### **Nnamdi Azikiwe University Awka, Anambra State --- BSC**

**July 2013 – September 2017.**

*BSc in Mass Communication.*

- Graduated with second class upper division
- 

## **PROJECTS**

- I developed a hotel management web application featuring a Stripe-integrated payment gateway and Google and GitHub authentication for secure, user-friendly access. The backend utilizes Sanity.io for scalable content management, while WebSockets enable real-time updates. Built with TypeScript, Next.js, and styled with Tailwind CSS, the app ensures performance and responsiveness. It is deployed on Vercel for reliable, fast service.

**Link:** <https://hotel-management-59cv.vercel.app>

- I created a responsive movie app using React, which dynamically fetches data from a movie API database to display the latest films. The app ensures a smooth user experience across all devices by efficiently handling API calls and presenting information in a visually appealing format
